

1970s

- The Recreation Building (now the Eckard Building) adds a second floor with restrooms.
- Construction of the Lake filtration plant begins in 1975 in the area behind the back pier. The summer of 1976 was the first year for clear water in the Lake.
- Lakeside's first Masters swim meet is organized and held by Jack Thompson and Gary Wiesenthal.
- Camille Wright wins a bronze medal at the Olympics in Montreal Canada. Jack Tingley wins gold medals at University Games in Moscow.
- Lakeside's 2nd bubble is purchased and installed. This is a freestanding structure, and not attached to the clubhouse/bathhouse like the original (thusly eliminating internal building damage and issues).
