

2010s

- Exteriors of both Thompson and Eckard buildings remodeled. Flat roofs eliminated, stone work and stucco finishes used to tie appearance to Pavilion and Front Gate Pavilion design style.
- Thompson Building dressing room area redesigned and 1st floor family restroom built.
- New larger VDE filtration and pump room is built in existing location with replacement of original pumps and piping for higher capacity and more efficient equipment and controls. Accessibility ramps continue to be constructed where needed.
